Aksaray University Technical Vocational School

Chemistry Technology Program

MISSION
To create a sustainable education and research environment where expressed ideas,based on mutual respect, supporting personal progress, team work comes to thefore.
To be a department that gives importance to the cooperation of industry and academy by supporting the sectoral education of the students in order to meet there quirements of thes ector in the field of chemistry.

VISION
To be a department that contributes to the development of science and technology by training a work force who is modern, entrepreneurial and knowledge able of the sector needs.

Goal of the Program

To train qualified in termediate staff who have gained the necessary professional competencies, taking in to account the needs of all branches of industry in the chemical sector in parallel with scientific and technological developments.

The program aims to provide both the basic principles of chemistry and all laboratory knowledges and skills related to practice.

"Chemistry Technician" title is given for graduate students.

Chemical Technicians serve as a bridge between engineers / chemists and workers in all industries that need chemical industry and chemical industries.

Graduation Requirements and Degree

- Associate Degree in Chemistry Program

- 120 AKTS

- 30 work day industry based internship training

Job Oppurtunities

Provides the opportunity to working industries;

- glass,
- rubber-gum,
:cement,
- paper,
- sugar,
- dye,
- fertilizer factories
- food,
- medicine,
- soil,
- cosmetic

- cleaning,
- energy,
- petrol,
- automotive,
- metal,
- leather,
- textile,
- petrochemistry,
- mineral,
- construction and wood sectors
- in shipyards

Academical Personal

Head of Department Dr. Arzu ÖZTÜRK

Dr. Nazmiye BİTGEN

Dr. Lalehan AKYÜZ

Dr. Tülden İNANAN

Dr. Nuray YILMAZ BARAN
